## How to View Notifications

1. Select a notification.
2. Click **View Notification** (eye) in top toolbar. Notification panel displays showing notification content. If unread, the notification is not listed as read.
3. Click **Close** (X) to exit panel.

## How to Manage Notifications

If read, click **Mark as Unread** (closed envelope) to list as unread. The existing date is removed from the Date Read column.

**OR**

If unread, click **Mark as Read** (opened envelope) to list as read. The current date and time are inserted into the Date Read column.
