SCOUTING

SCOUTING

Scouting displays information collected in-field through integration with the app-based scouting tool.

1. Navigate to and select a farm and field from the drop-down **Assets** panel.
2. Select or confirm the season of interest from the year drop-down **Seasons** list.
The **Scouting Entries** tab populates with all the created scouting reports.
3. Select a scouting report and the **Scouting Entry** panel displays to provide a snapshot of the report.
