Quick Reference Guide

DASHBOARD

DASHBOARD

How to Access and Customize your Dashboard

The **Dashboard** offers you a current, summarized snapshot view of your farm, equipment, weather, notifications, jobs, etc. The information is displayed in groupings called tiles.

Organize the tiles to accommodate your information preferences.

First, select the **Farm** and **Season** to filter the information displayed.

Second, select what information tiles you want displayed in your Dashboard by clicking Settings (⚙️) and selecting or deselecting the tiles from the list.

Third, click Navigation (⊕) to unlock the tiles. Drag and drop the tiles in the arrangement and order you want to view them.

The screenshot shows the FarmCommand dashboard interface with several annotations:

- Country / Language:** Points to the user profile area in the top left.
- Close expanded Menu:** Points to the 'X' icon in the top left.
- Open Password Reset:** Points to the gear icon in the top left.
- FarmCommand Smart Insite Settings:** Points to the 'Settings' button in the top right.
- Top Menu:** Points to the 'Farm' and 'Season' dropdown menus.
- Unlock tiles movement:** Points to the plus sign icon in the top right.
- Tiles Settings:** Points to the gear icon in the top right.
- Menu (expanded with Dashboard the active window):** Points to the expanded navigation menu on the left, which includes: Dashboard, Maps, Weathers, Jobs, Crop Manager, Scouting, Notifications, Fields, File Explorer, and Contacts.
- Tiles:** Points to the main dashboard content area, which includes: Canplugs (15), Farms (2), Notifications (20), Farm Acres Report (a donut chart), and Current, Forecasts, And Historical Weather (a weather tile for Harmsworth SSW showing -23°C and a 7-day forecast).
