

GETTING STARTED

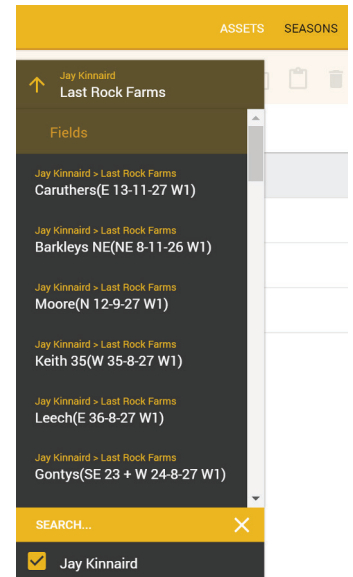

Quick Reference Guide

FILE EXPLORER

FILE EXPLORER

The files in the explorer are tied to different asset levels. Files can be dragged and dropped in the explorer or added using the upload button. The files will appear in a list that includes details such as file size, the map and the records from Job Manager.

Click **Assets** on the top menu and navigate to the farm or field for the files you want to view. Navigate through the folders and use the top toolbar to manage your files.

How to Navigate the File Explorer Toolbar

Go to Jobs

Go to Maps

Upload a ZIP file

Download selected file

Upload new file

Create New Folder

Rename existing folder or file

Cut file from associated field

Copy file for placing in another folder

Paste file in another folder

Delete file from FarmCommand®
